It's Just Time.

Upgrade your 3M™ Littmann® Stethoscope

Your stethoscope has supported you through hundreds of patient exams, helping you hear thousands of heartbeats and sounds. It's time to replace one of your most-used medical instruments. Here are some reasons to invest in a new 3M™ Littmann® Stethoscope.

Enhance:

There are new 3M™ Littmann® Stethoscope models available. Cardiology IV™ and Classic III™ Stethoscopes have single-piece diaphragms, next-generation tubing and improved acoustics. If this is news to you, it's time to see and hear what you've been missing. Next-generation tubing, for example, provides improved resistance to skin oils, alcohol and stains for longer tubing life.

Invest:

Keeping your stethoscope current is an important investment in your future. Are your colleagues hearing things through auscultation exams you're not, or advanced diagnostic tests are uncovering things you've missed? If this sounds familiar, it's probably time for a new stethoscope.

Personalize:

There are dozens of colour and finish combinations. Choose one that makes your 3M™ Littmann® Stethoscope truly yours.

Expand:

It's not always practical to take your stethoscope with you on the go. To ensure you're never without one, purchase multiple stethoscopes. Keep one in the office, one in the car and one in your bag.

Change:

It's just time. You've had your stethoscope for several years, and you want a new one.

Ready to upgrade your stethoscope?

- ✓ Contact your authorized 3M™ Littmann® Stethoscope dealer between **October 1, 2018 and December 31, 2018** to find out more about the upgrading program.*
- ✓ Upgrade your stethoscope and receive a 3M™ Littmann® Stethoscope Name Tag at no charge.*
